Analytic Framework: Multicomponent Interventions to Promote Breast, Cervical, and Colorectal Cancer Screening

**Increase provider delivery**
- Provider reminder
- Provider incentive
- Provider assessment & feedback

**Increase demand**
- Group education
- One-on-one education
- Client reminder
- Client incentive
- Small media
- Mass media

**Increase access**
- Reduce out-of-pocket costs
- Reduce structural barriers*
  - Reduce administrative barriers
  - Appointment scheduling assistance
  - Alternative screening sites or hours
  - Provide transportation
  - Provide translation
  - Provide child care

- Other benefits or harms?

**Change provider**
- Knowledge
- Attitudes
- Intentions

**Increase provider discussion of test with clients**

- Change
  - Knowledge
  - Attitudes
  - Intentions
  - Skills

**Increase test recommendation, offer, order**

- Increase provider delivery
- Increase demand
- Increase access

- Effect modifiers:
  1) Deliverer (PN, CHW, provider, etc.)
  2) Healthcare system factors
  3) Previous personal experiences (direct or indirect)
  4) Relationship factors (e.g. trust)

**Increase**
- Completed recent and/or repeat screening

**Follow-up**
- Diagnosis/Treatment

**Decrease**
- Incidence**
- Morbidity
- Mortality

*Interventions addressing multiple structural barriers are considered multicomponent.

**Reduced incidence may not apply to all cancers.
