Analytic Framework: Interventions to Increase Influenza Vaccination Coverage among Workers

Key
- Intervention
- Population
- Proximal outcomes
- Recommendation outcomes
- Not evaluated

Interventions
- Access to Vaccine
- Beliefs and Attitudes
- Knowledge of Vaccine/Disease
- Norms and Perceived Norms

Social determinants
- Working population

Vaccination Coverage
- Exposure to Influenza
- Effectiveness of Vaccine

Morbidity and Mortality
- Susceptibility

Healthcare System Use
Worker Productivity

Beliefs and Attitudes
- Knowledge of Vaccine/Disease
- Norms and Perceived Norms

Working population
- Interventions
- Population
- Proximal outcomes
- Recommendation outcomes
- Not evaluated
